Wireless Multi-Camera  
Livestreaming Platform

[MySlingStudio.com](http://MySlingStudio.com)

# Explore the SlingStudio Platform

SlingStudio is the only platform that's flexible enough for every production. With our video-grade wireless technology, you can connect a combination of 10 cameras, camcorders, smartphones and even drones without cables, reducing your setup time.

## Platform Features

### Multi-camera

Wirelessly connect a combination of 10 cameras, smartphones, even drones to get the perfect angles in HD.

### Livestreaming

With the touch of a button, stream your live-switched, multi-camera production to custom RTMP destinations.

### Wireless

Using SlingStudio CameraLink, send video to the SlingStudio Hub from your camera up to 300 feet away.

### 4K post-production

Import your native recordings to create 4K projects by proxy, keeping timelines and edits intact.

## Console App & Features

---

The FREE SlingStudio Console app turns your iPad or Mac into your portable production studio, allowing you to act as director and producer simultaneously.

### Switcher

Switch between 10 video sources and monitor up to 4 using the Console app running on a compatible iPad or Mac device

### Video Transitions

Cut, dissolve, wipe, fade to/from black; programmable transition duration

### Video Compositions

Picture-in-picture (PIP), multiple split views

### Audio Mixer

Full audio mixer functionality with monitoring mode support

### Overlay Graphics

Text overlays, lower-thirds (title and scoreboard)

### Import Video and Graphics

Import multiple video clips and PNG and JPG graphics for live switching, queuing, and highlights

### Instant Replay

Replay the action in slow motion or normal speed

### Tagging & Highlights

Create highlight clips by tagging special moments on the fly

### Custom Scoreboard

Create custom scoreboards by importing your own graphics and overlaying with elements like team names, scores, periods/innings, strikes/balls/outs, and more.

## Livestreaming

---

Use our FREE Capture app for your Android or Apple smartphone, or your professional video recording device to stream your multi-camera production with live switching to Facebook, YouTube, Twitch, Periscope, Livestream, Restream.io, and other RTMP destinations. SlingStudio produces video in HD resolutions up to 1080p60 at bit rates up to 30 Mbps using H.264 encoding, and supports 4K post-production.

## Recording and 4K Post-Production

---

Get up to 7 recordings with each production, including individual feeds, the program recording, a quad view and line-in audio. Easily export your footage to Adobe Premiere Pro CC and Apple Final Cut Pro X from a single storage device, which automatically time-aligns your files so you can begin editing without having to spend hours in post-production setup time.

You can also create a new program recording in 4K, in higher bit rates, or with higher quality video codecs using the SlingStudio plug-ins, with all edits preserved.

## Video & Audio Inputs

### Wireless Video Inputs

Up to 4 monitored sources via wireless 802.11ac connectivity, supporting up to 1080p30, 720p60, and 720p30 video

– or –

Up to 2 monitored sources via wireless 802.11ac connectivity, supporting up to 1080p60 video

Supported wireless sources\* via 802.11ac:

- Cameras/camcorders\* with HDMI output (requires CameraLink, sold separately)
- iPhone 6\* or higher (requires Capture app – free download from Apple App Store)
- Select Android phones\* with Android 5.0 Lollipop or higher (requires Capture app – free download from Google Play)

### HDMI Video Input

1080i60, 1080p30, 720p60 and 720p30

### HDMI Video Output

HDMI Type C connector supporting up to 1080p60 video output of program/quad view. Zero-latency option available in HDMI passthrough mode for an HDMI input source.

### Digital Audio Input

2-channel HDMI/802.11ac-embedded audio (48 KHz, 16-bit)

### Analog Audio Input

3.5 mm port for line-level, 2-channel unbalanced input (mic-level input requires external pre-amp or mixer)

### AV Sources Supported

Up to 4 monitored sources\* in 1080p30/720p60/720p30 modes.

Up to 2 monitored sources\* in 1080p60.

\*See supported devices at [MySlingStudio.com/compatibility](http://MySlingStudio.com/compatibility).

## Recording & File Formats

### Video Recording Formats (mp4)

H.264 High Profile 4:2:0

1080p60 up to 30 Mbps

1080p30 up to 16 Mbps

720p60 up to 16 Mbps

720p30 up to 4 Mbps

### Audio Recording Formats (AAC-LC)

2-channel 48 KHz, 16-bit up to 320 kbps

### Multi-Stream Recording (mp4)

7 simultaneous recordings of:

- 4 video sources/inputs
- 1 quad view of 4 inputs (video only)
- 1 program/output stream
- 1 line-in (audio-only) recording

### Recording Media Types

SD card slot (select UHS speed class U3 and higher\*)

USB 3.0 hard drives, SSD drives – available via USB-C port (requires USB-C Expander, sold separately)

### Timecode Syncing

Import and time-align recordings directly to Adobe Premiere Pro CC and Apple Final Cut Pro X, saving hours in post-production editing.

## Hardware

### Wireless

Simultaneous Access Point and Client modes:

- 5 GHz 802.11ac Access Point/Hotspot mode to connect to an iPad (running the Console app) and different video sources (cameras/camcorders via CameraLink and/or iOS/Android phones)
- Dual-band 2.4 GHz and 5 GHz 802.11ac Client mode to connect to the Internet for livestreaming

### Interfaces

HDMI Type A connector for video input

HDMI Type C connector for video output

SD card slot for recording (specific requirements apply\*)

3.5 mm mini-jack for 2-channel unbalanced audio line-in input

USB Type C connector for connecting to hard drives or SSD drives

SlingStudio USB-C Expander (sold separately) for connecting to USB 3.0 drives and Ethernet

Power connector

Battery-pack connector for SlingStudio Battery (sold separately)

### CameraLink

#### HDMI and Digital Audio

1 HDMI Type D connector supporting 1080p60, 1080i60, 1080p30, 720p60, and 720p30 video inputs

2-channel HDMI embedded audio (48 KHz, 44.1 KHz, 36 KHz, 16-bit)

#### Battery Life and Charging

2+ hours of battery

Micro-USB charging port for use with common smartphone/tablet USB cables, 3 to 4 hours charging time when CameraLink is off using a USB cable with 10 W (5V, 2A) or higher

#### SlingStudio Hub

MSRP **\$999**

Professional multi-camera production and live video streaming made easy.

#### SlingStudio CameraLink

MSRP **\$349**

Wirelessly send video to SlingStudio Hub from your camera up to 300 feet away.

#### SlingStudio Battery

MSRP **\$149**

Use SlingStudio anywhere without a power cord for up to 3 hours.

#### SlingStudio USB-C Expander

MSRP **\$49**

Record to external storage and stream live via Ethernet.

#### SlingStudio Backpack

MSRP **\$199**

Store all of your SlingStudio gear, accessories, and more.
